Overview of Aflatoxin Actions across Africa

Winta Sintayehu Gebremariam, Program Officer, PACA
7 October 2014
Database of Aflatoxin Activities in Africa

• The PACA Secretariat has been collecting information about many of the aflatoxin control efforts across Africa
• 40 organizations participated in the survey
• 142 activities are currently in the database

• Disclaimer: The Database only includes activities that have been submitted to the Secretariat. There are likely additional activities that aren’t included
To be included, activities must be:

• Recent
• In or focused on Africa
• Activities can range from research and analysis, development of new control technologies, scaling existing technologies, or building capacity among key actors on the agricultural value-chains.
Available online:
